

# EYE ON SAFETY

February 2024 Recap

**DBM**

All Safety Field Reporting Information must be submitted to Sue at the end of the month for consideration in the newsletter

**MONTHLY SAFETY STATEMENT: "DO WHAT IS RIGHT, NOT WHAT IS EASY."**

## Rules for using Personal Protective Equipment (PPE)

- 1 Know which PPE is required for your work role.
- 2 Use the PPE in the manner you have been trained to use it.
- 3 Ensure your equipment fits comfortably.
- 4 Be fully trained in the use of your specific PPE.
- 5 Do not misuse or damage the clothing you have been provided.
- 6 Ensure proper care and maintenance of the PPE.
- 7 Notify your employer immediately if you notice any damage

*Safety article of the month*

- Winslow Water Tank: **Greg Matson**
- YMCA Redmond: **Rudy Ortega**
- 911 Condos – N. Seattle: **Rudy Ortega**
- ODOT US Hwy 30: **John Hicks**

## SAFETY TIPS - LADDER SAFETY

### WHAT TO INSPECT:

- **Label and Manufacturer's Instructions** – Is the ladder type correct for the task at hand and is there a specific inspection procedure for the ladder
- **Tag** – Was the ladder inspection date recorded, and did the inspection indicate the ladder was safe to use
- **Functionality** – Are the feet, foot pads, shoes, rails, rungs secure and free of damage (e.g. dents, cracks); locks & flippers work, is the rope secured to fly section of ladder?
- **Condition and Cleanliness** – Do all parts of the ladder show no signs of damage or defect? Are the rungs free from debris, dirt, oil, and grease?

**LADDERS SHOULD BE INSPECTED BEFORE INITIAL USE IN EACH SHIFT AND EVEN MORE OFTEN, IF NECESSARY.**

## JOB SITE SAFETY INSPECTIONS

- Project: **NBK Shelton Shafts** (2.9.24, 2.15.24)  
 Superintendent/Foreman: **John Hicks (2)**
